Marriage, Parenthood, and the Role Religious Communities Play. Churches have long been pillars of community life, nurturing relationships and supporting families through life's seasons. As the nation works towards building a society where marriage and parenthood are truly valued and supported, your voice and partnership matter deeply. We invite you to a conversation with Minister Indranee Rajah who is leading the Workgroup on Marriage and Parenthood Reset to:

- Learn more about Singapore's demographic situation and Government's plans and priorities to address this challenge.
- Discuss how churches can also complement the Government's efforts to encourage and support Singaporeans in their marriage and parenthood journeys

Pastors and church leaders are invited to this engagement to be held on 9 September 2026 at 10am @ The Cathedral New Sanctuary, St Andrew's Cathedral. If you are able to attend, kindly register [HERE](#).

The Staging of *Jesus Christ Superstar* in Singapore. The National Council of Churches of Singapore (NCCS) had been aware of the discussions among Christians regarding the staging of the musical *Jesus Christ Superstar* in Singapore. The Council had conveyed the concerns expressed by some Christians to the relevant authorities early this year. This statement provides a sketch of the musical's narrative, affirms orthodox Christian beliefs about Jesus and guides Christians on how they might engage the musical responsibly. Worship space enquiry. An Orthodox Church is seeking an estimated 1500 sq ft worship space (ground floor or with lift access) for its growing congregation preferably for Sunday morning service times. A prayerful community that observes Lent/Easter/Christmas with additional weekday services, it requires space which can accommodate placement of altar table and holy icons, and regular use of candles/incense. If your church or organisation is able to assist, please reach out to Mr Matthew Aujla (matthew.aujla@gmail.com).

Cybersecurity Guide for Charities. Charities in Singapore rely heavily on digital tools to manage donor information, beneficiary data, and daily operations, which make them potential targets for cyber threats. The Charity Council has developed a Cybersecurity Guide for Charities. A copy of the guide is available at this [LINK](#).
